1.2.1- Percentage of new courses introduced of the total number of courses across all programs offered during the last five years.

HEI Response:

HEI has provided the **authenticated Agenda of AC Minutes highlighting the names of the new courses** introduced. HEI is also providing the **relevant AC Minutes highlighting the agenda**. HEI has not considered the same course five times – what has been mentioned in the AC minutes is the name of the subjects offered across semesters. **However, though it appears as same subjects the course syllabi are different for each of the courses for each semester mentioned in the agenda.** Also please note the courses are different and the course codes are also different for each of the courses mentioned. Hence there is no repetition.

Thus, the HEI retains our claim to the number of 478 New Courses introduced and the total number of courses to 1960 offered across all programs for this metric.
