Environmental Protection Measures

Linde India Ltd. regards protection of environment as an important objective and is committed to minimising any adverse effect of its operations on the environment. It will achieve its goal by:

- Ensuring compliance with all relevant statutory and regulatory provisions as well as Group standards for environment protection.
- Putting into operation a systematic environment management plan, which will identify the best practicable environment protection measures for all its processes and activities and compliance with the plan through regular audits and reviews.
- Developing and marketing environment friendly products and services and providing information and assistance to customers, suppliers and general public towards environment protection measures.
- Continually improving the environmental performance and conserving energy and other resources by providing training and awareness to all employees and contractors' employees.
