

MENTORING REPORT 2021-22

F.Y.B.Sc. Computer Science

Date: 02-03-2022

Venue: Google Meet and Statistics Laboratory

Time: 10:30 am – 11:15 am

Mentor: Anjali Kale

1. Issues or problems shared by the students

Social: socio-economic problems while studying for B.Sc. Computer Science. The medium of instruction particularly in science subjects is English. So students from other mediums who are not well versed in English, cannot study computer science properly in English. Online and off-line lecture attendance problems due to their current socio-economic situations. Problem of performance on laptops as they cannot afford to buy laptops. Jobs, pg, learn and (riddhi), competitive exams, certifications etc.

Cognitive: mind conflict in decision making in the career, (students being from computer science) about the selection of domain/ platform for the career/in the job. Conflict in selecting area of specialisation and whether to go for postgraduate studies or not. Mind conflict due to current pandemic situation.

Emotional: Emotional stress due to expectations by parents on the grounds of study and career. Emotional stress due to use of technology via online and off-line lectures in current socio-economic and pandemic situations.

2. Facilitator's response and suggestions:

With an open and confidential talk with the students, facilitator showed willingness to extend help and assistance in students' development. Tried placing online teaching through different platforms like MOODLE, GOOGLE CLASSROOM, MAKING YOUTUBE VIDEOS and conducting off-line lectures. Tried to solve problems using whatsapp, through emails and via phone calls and in off-line meetings.

3. Outcome of the mentoring programme

- A range of interpersonal skills to fit a variety of professional encounters and situations.
- Identification of concerns faced by students on a day to day basis.
- Good working knowledge of a repertoire of teaching methods, alternative modalities of learning, and styles of teaching and learning that affect student achievement.
- Understanding the stages of teacher development within the context of how students learn.

Emotional: Emotional stress due expectations by parents on the grounds of study and career. Emotional stress due to use of technology via online and off-line lectures in current socio-economic and pandemic situations.

2. Facilitator's response and suggestions:

With an open and confidential talk with the students, facilitator showed willingness to extend help and assistance in students' development. Tried placing online teaching through different platforms like MOODLE, GOOGLE CLASSROOM, MAKING YOUTUBE VIDEOS and conducting off-line lectures. Tried to solve problems using whatsapp, through emails and via phone calls and in off-line meetings.

Suggestions by students:

1. Need drinking water facility on the third floor.
2. Need sufficient water supply in the washrooms of the third floor.
3. Need provision of sanitary napkins, needed in case of urgency, in the college campus.

3. Outcome of the mentoring programme

- A range of interpersonal skills to fit a variety of professional encounters and situations.
- Identification of concerns faced by students on a day to day basis.
- Good working knowledge of a repertoire of teaching methods, alternative modalities of learning, and styles of teaching and learning that affect student achievement.
- Understanding the stages of teacher development within the context of how students learn.
