

Mentoring Report – Dr. Sandhya Pandit – FYBA – Roll Nos. 2201 to 2255

Date: 02/03/2022

Venue – Room No. 114

- Academic - The issues that students voiced were academic related to examination results, subsequent examination dates, conduct of Compulsory English and Sociology lectures not being done simultaneously in the Online and offline mode in light of the Covid-19 pandemic. Those who were attending classes only Online were worried about missing out on their attendance and the class discussions and content as these teachers were taking lectures only offline.
- How I resolved them – made them aware of the examination process, assured them of informing college authorities to request the teachers to conduct online classes as well simultaneously.
- Outcome – Students understood and appreciated this effort by the college

Mentoring Report – Dr. Sandhya Pandit – FYBA – Roll Nos. 2201 to 2255

Date: 30/04/2022

Venue – Room No. 06

- Academic - Only two issues that students voiced were academic related to examination time and anxiety over giving offline exams.
- Feedback Form – These links for Teacher and Course Feedback were also shared with the mentees and encouraged them to fill the form honestly because a good feedback goes a long way in helping the institute deliver better.
- How I resolved them – encouraged them to practice writing answers while studying for the exams, also informed them that if such instructions are received from the University for the timing, it will be followed. One anxious student was also calmed and encouraged to study well and write the exam as they are all capable and good students.
- Outcome – Students understood and appreciated this effort by the college
