Dr. Jaya Rajagopalan
Head of Department
Psychology Department
St. Mira's College for Girls
Pune

Dear Dr. Jaya Rajagopalan,

This is to express our appreciation to you for the internship conducted by the students of St. Mira's college Psychology and Sociology department, with R.P.G Foundation at the communities around Zensar, Kharadi, Pune.

During the internship period, 20 students conducted 130 home visits using the SALT methodology. They also supported in documenting the data and digitizing the qualitative and quantitative data for us. This data is helping us in planning our further initiatives that builds agency among the community members.

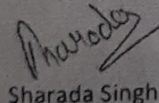

We found the learning attitude of the students refreshing as they engaged with the communities in listening and recording the information. The students also displayed consistency in showing up and completing the assignment.

We appreciate the college faculty for the willingness to collaborate with us and for the support offered in ensuring that the students displayed professional work ethic as they engaged with a work environment.

There are lessons learned at both ends and we look forward to an even fruitful collaboration in the days to come.

We wish you and the department well as you engage in creating professionals who are well tuned to the world around them.

Sincerely,

Sharada Singh
