REPORT ON STORY TELLING SESSION

St. Mira's College for Girls, CWE and IIC organized a Webinar on 22nd November, 2021 narrating the journey of a very successful entrepreneur Mrs. Mrunalini Makhale. She described her challenging task of establishing CRAZYPETALS that inspired our youngsters to face the odds in life. Mrs. Mrunalini Makhale is an Engineer turned into a Fashion Designer. Her profound love for Indian Art and rich heritage of textiles made her leave IT industry after working for more than a decade. She instilled faith in the students and made them realise not to compromise with quality and effort, retain brand image and carve a niche in the hearts of customers. Mrs. Mrunalini also invited the students and staff to her shop and her exhibitions and expressed her desire to remain in touch with the college lifelong.

It was a delight to listen to Ms. Mrunalini speaking about the economics of any trade, the calculation of cost structure, derivation of profit, corporate ethics, grit and determination required for a long journey. She sports her creation in Pune's Clover Centre, Shop No.7, one of the most iconic landmark in the city. CWE and IIC have always provided platform to the students to endorse their talent, organized interface with real life entrepreneurs and narrated most difficult journeys in a lucid manner. The students learn to brave the new uncertain world, ride the storm and embark on a dazzling future.

115 students actively participated in the webinar.

Data Scientist

- The main things that set a data scientist apart from a statistician are the ability to work with big data and experience in machine learning, computing, and algorithm building.
- Being a data scientist is not about how advance your models are
- It is about what impact you have on your business
- Not a data cruncher but a problem solver
- Strategist
