Student resources

Urvi Shetty, a sociology student of St. Mira's College, Pune, launched Covid Resource Student Association (CRSA) in association with Taarini Das and Karuna Das. Run by students to help people in dire need of Covid resources by providing verified and well researched data, the project began in April, with just volunteers. However, with the help of their respective colleges and social media, the word spread and there are now 111 volunteers. The team works to help Covid patients and their families to get access to resources like medicines and injections keeping regulations in mind, real-time availability of ICU and oxygen beds, plasma donors, tiffin facilities, ambulance services and other needs.

Upskilling initiatives

In order to upskill the Indian IT workforce with evolving enterprise tools and technology, SpringPeople has become an SAP Education partner to bring world-class training courses and certifications to India Inc. The focus will be on providing Indian organisations with a skilled workforce through its cross-skilling and upskilling initiatives. Enterprises will now have complete flexibility to define and drive SAP Education and certification initiatives within their organisations.

The second wave of Covid 19 has been brutal as compared to the first one in 2020. Reportedly, the cases went more than 2,80,000 in a single day in the country with shortage of oxygen, hospital beds, medicines and injections, which caused a panic and a sense of chaos across the country where people resorted to social media asking for help.

In Pune, citizens took it on themselves to bridge the gap between people who were seeking the resources and the people providing it. Bhavjeet Wallia, 22, student, says, "We're essentially trying to collate, verify and deliver information existing on public domains, to people who may need it. There are volunteers who are either trying to find information like beds or ICUs available in a particular city, making phone calls to verify leads that are found and facilitating SOS messages requesting information/resources about their specific needs." He adds

I was getting requests from relatives of patients for resources in the city.

DR GULSHAN GIDWANI,
Principal, St Mira's College

that these people are not from medical backgrounds, not emotionally prepared for horrid realities of what's going on in the world around them. "Most of these people are doing it out of an immense amount of grief, trauma and loss," he shares.

Another volunteer Nida Siddiqui says, "I was shocked that things are so bad, and we had to do

something. We made a linktree list of all the major resources we could find. I call up the numbers and verify the contacts, and check if the resources are available and share it further." She adds, "It takes a toll on your mental health. We were looking for oxygen for a patient the entire day, and by the time we procured it I was exhausted and it was really difficult."

Dr Gulshan Gidwani, principal, St Mira's College, says, "I was getting requests from relatives of patients for resources in the city and I was sharing the same with student and alumni groups to look for leads. The NSS students came together as I couldn't call and verify all the numbers and check for availability." She adds they contacted all the resources and managed to help people with oxygen cylinders, hospital beds, plasma donors and even money.

Pune: With the entire country battling the second wave of COVID-19, we need all the help we can get. Even as the fight against the COVID outbreak in the state is on a war footing, COVID patients are finding it difficult to find hospital beds. In a bid to tackle the problem, a group of 25 NSS volunteers of St Mira's College are helping the CRSA (COVID Resource Students Association) formed with the initiative of one student of St Mira's with her friend to help patients find verified resources.

COVID Resource Student Association (CRSA) is an initiative started by Taarini Das, Urvi Shetty (a Sociology student of St Mira's College) and Karuna Das. The initiative is fully run by students to help people in dire need of COVID resources by providing verified and well-researched data.

According to the group, it was important to conduct such a campaign simply because it is the need of the hour. CRSA wanted to help people with verified information so that instead of running around for resources, people could attend to the needs of their loved ones. It was also set up to boost people's morale since the association couldn't be directly involved in supplying resources.

The initiative came to life when Taarini, Urvi, and Karuna connected via social media and decided to do their bit in helping the country heal and get through these trying times. The project started in April, with only 4 volunteers. However, with the help of their respective colleges and social media, the toll has gone up to 111. The volunteers are working tirelessly for this cause.

A group of 25 NSS volunteers of St Mira's College are helping the CRSA (Covid Resource Students Association) formed with the initiative of one Sociology student of St Mira's with her friend as the work was too overwhelming for the core team. This was in response to a call by their Principal, Dr GH Gidwani to come forward and help. Together they are working on helping COVID patients and their families to get access to resources like medicines and injections keeping the government regulations in mind, real-time availability of ICU and oxygen beds, plasma donors, tiffin facilities, ambulance services to name a few.

In this huge endeavour, the NSS volunteers group is helping them in the data collection and verification of the data across the country. In a short span of three days, the team has succeeded in helping about 30 patients. The team has helped patients not only from Pune but also from the cities like Agra, Bengaluru, Delhi, Mumbai, Jaipur, Jhansi and Dehradun. This group of volunteers together were able to help around 2,000

people across the country through various social media platforms.

According to the core team, "Over the last two weeks, we've seen people cry out for help. We have helped as many as we could have. Even though the number seems small and sometimes the person in need fails to get the resources on time, this does not stop us from taking the next step towards kindness. All it takes is 20 seconds of courage to make the next call, to look for people in need, find more resources, to help as many as we can. The three of us have found a home away from home in each other."

"Finding our way back to our WhatsApp group, talking about how our day went, becoming each other's checkpoints, and we eventually have become a big family. Managing everything with college and home is extremely difficult, but the fact that we can provide someone with something that they urgently need gives us purpose –to do more, to be more and to learn more," it added.

When the CRSA volunteers receive messages from people thanking them for leads, resources or even some moral support, they feel even more encouraged to keep helping people every day.

Every day posts dire challenges, but it is the relentless spirit that keeps students motivated. With a strong workforce, they intend to stay on board as long as people need them.
