From the Editors Desk

The world's a big stage and we all play our characters in it. What fun would that world be if it didn't have drama to spice things up? That's why all our ears need is some music and concerts. Be it long drives or Valentine's day dates or winning an award, music adds a mood to all of them. People who stay in the car to listen to music a little bit longer are the people we adore. Minutes of music leaves years of memories with us. Music is that source of joy that completes the words we lack to express. Music enables people to escape. From dancing to taking long walks to bedtime to weddings and religious gatherings, music covers it all. So by now, you must have figured out what our theme for this month is. What are we waiting for? Grab your earphones, connect your phone and let the MUSIC take over your soul. And do not forget to check out our version of The Mira's Music Store! Stay tuned! This is

Report - Session on 'Keeping Calm No Matter What'

The Sanctuary/Mulya Pravaha Committee organized a session on "KEEPING CALM NO MATTER WHAT" by Didi BK Monica Gupta on 21st August 2021 on zoom platform at 11.00 a.m.

One of the aims of the committee is to provide students with life skills which will assist them in self-improvement and self-knowledge. In sync with this aim, the session was organized to provide students an insight into techniques of cultivating solution-oriented mind set, convert dreams into goals and goals into reality. 242 participants including faculty and students attended this session.

At the beginning of the session, Dr. Vaishali Joshi, Co-ordinator, Sanctuary Committee, welcomed the participants and explained the purpose of organizing this session. Dr. Meenakshi Wagh introduced Monica Didi

Monica Didi's session was very informative and engaging. She first narrated about how distractions are becoming easily accessible and affordable and how a number of distractions keep pouring on us in various forms like our own thoughts, gossips like competition, comparison and jealousy. There could be external factors like pandemics or natural calamities. Didi referred to the negative thoughts as RAT(Reoccurring afflictive thoughts) and to counter the RAT, she said we have CAT(Counter affirmative thought). It leads to positive thought and develops a will to do the task. These distractions lead to fear, panic, stress and uncertainty. Didi further said that challenges now a days are constantly growing demanding 3 things – we want to be better, we want to be faster and we want to be cheaper. These increased distractions have now led to decrease in attention span leading us to become individuals with continuous partial attention declining the ability to enjoy and live life fully.

Quoting various researches Didi showed a direct link between depression and technology and as a solution talked about how we should connect and live in this technology driven world in a better way. She said that to decrease our stress we should increase our resilience by increasing inner power. The word 'human' means made up of 5 elements and 'beings' meaning soul/psyche/consciousness. On an average we create 90% of negative thoughts, 5% essential thoughts and 5% positive thoughts in a day. The space in our thoughts leads to think less, think

slow and think better. To achieve this we can do meditation, the word meditation is derived from Latin word 'medri' meaning to heal. It is a Art of healing the inner self through pure, positive and powerful thought. Meditation is not an event instead it is a journey.

Towards the end, Didi led the participants into active meditation. Students mentioned that Monica Didi's calming voice gave them a positive energy and they experienced calmness within and Peace flowing through out the mind.

Podcast by the Mira Manch Queens: "Dissecting the Media"

Number of participants: 13

Agenda:

- discussion on any piece of media chosen by the club heads every Sunday
- episodes featuring guests (*students, teachers, etc.*) for discussing media

Introduction:

"Dissecting the Media" is a weekly podcast on Spotify, started by the heads (*Kareena Narayan, Shreya Bhide, and Harleen Kaur Grewal*) of the Mira Manch-Queens, the theatre club of St. Mira's College for Girls.

Every Sunday, one of the heads chooses a piece of media – films, TV shows, songs, books, plays, etc. – they wish to talk about, and discuss the segments which highlight certain issues, or where it has gone wrong with respect to current times.

The episodes are about an hour long, with a few spoilers of the content to be discussed, and trigger warnings are given beforehand as well, should the discussion turn serious or uncomfortable for some listeners. However, the main idea of the podcast is to discuss one's favourite film or show, and why it is still appreciated by many, despite all the flaws discussed.

In the webinar, he discussed how a data story can be told using basic Statistics and a visualization tool such as Tableau Public. The first story was about a small business and how it could forecast and set sales targets using basic Statistics in Microsoft Excel. The second story was on the most famous infographics the world has seen viz. the story of the meteoric growth in Tesla's market capitalization. We learnt how to construct such a story using Tableau Public. Mr. Karan Shah, spokesperson and a member of faculty for MDAE outlined the important courses offered by the institute to enrich our students about various career options post-graduation.

318 students participated in the discussion and appreciated the power of Data Analysis using Statistics. We look forward to a few more sessions on Data Analysis for stimulating the insights of the students.

Why Ethics and human values matter

The Sanctuary/Mulya Pravaha Committee organized a session on 'Why ethics and human values matter' on 22nd October, 2022 at 8a.m. on zoom platform. This session was facilitated by Dr. Ivan John, Sophia College, Mumbai. This interactive session got overwhelming response of students and faculty.

Dr. Vaishali Joshi, Co-ordinator of Sanctuary committee welcomed the speaker and the audience. She explained how at St. Mira's value-based education forms the core of learning and why having a discussion on relevance of ethics is integral to the institutional ideals.

Dr. John began the session by introducing basic concepts like human values, ethics and morals. He said that ethics and values emerge in a culture and are not permanent. As criteria to judge human behaviour, ethics need to be internalized by the members of society. He stressed that more than learning, practicing ethics and values is more important. The ethical code of conduct refers not just to what we have in mind, but more to what we say, what we do. The problem arises because there is always a gap in what we learn and what we practice.

He also stressed the need to develop a more open and tolerant world view which would allow space for diverse values and cultural standards.

The session ended with interactive discussion. Vote of thanks were proposed by Kanishka Joshi. *457 students participated.*

A Report – Exploring the world of Media

Speaker: Triveni Mathur.

Date:-16th Feb 2022

Time:- 9.15 am to 10:10 am Platform:- GMeet

Media, as a whole, is an ocean of knowledge, entertainment, a platform to put our heart out and create an image and to act as an audience. It acts like a mirror of the society one lives in and is a part of.

Understanding this term and its branches can be a huge task and create false knowledge and beliefs if not received and understood properly.

Through the beautiful session with Dr. Triveni Goswami Mathur ma'am, we, students of sociology from First year to Masters, got an idea and brushed-up students' basics and the core essence of Media and its usage.

From the discussion of what Media is to how to use it and the importance of curiosity, questioning, talking and listening. Everything was explained and discussed which helped all of the students to realise how powerful Media is and can be used in so many ways without misusing it.

Discussion on career in this field and different branches that are coming up as good jobs was wonderful during the Question and Answer session.

Nirbhay Kanya Abhiyan Workshop(21st to 23rd February 2022)

The Department of Student Welfare organized Nirbhay Kanya Abhiyan workshop from 21st to 23rd February 2022 with an objective to develop confidence among girls and become a fearless women. In recent years, when on one hand we see women working in all fields equally with men, the incidences of abuse and violence against women are also consistently rising. So, a campaign like Nirbhay Kanya Abhiyan is very essential in helping students understand structural constraints that restrict their freedom and learn ways and strategies to deal with them. This year the workshop was both online as well as offline mode. 20 girl-students from Christ College were invited to attend the Nirbhay Kanya Abhiyan Workshop. Total there were 70 students online and offline mode

On 21st February 2022, the first session on **Self- Defence** was conducted by Miss Maya Khadka, she is a black belt in Karate. She introduced simple techniques of self-defence which the girls can use to protect themselves in regular situations like bus travel. Then she demonstrated self-defence tactics to be used in situations of physical violence or eve-teasing involving physical abuse. She showed how simple techniques using one's reflects can be employed to defend oneself. Miss Maya demonstrated with the help of volunteers some very useful self-defence actions which the girls have to learn only through regular practice. At the end she said that self-defence exercises must be practiced on a regular basis and not remain only at a workshop level where most participants forget it very quickly.

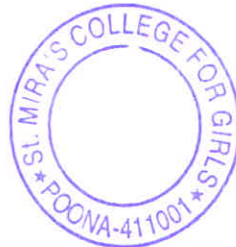

On 22nd February 2022, second session was conducted by Mrs Shakuntala Bhalerao, a social activist on **Harassment of girls and women at home**. She introduced the session with the help of a documentary film and then discussed the ways through which the harassment and exploitation is done. The students actively participated in the discussion and shared their experiences. Some strategies were also suggested by the speaker as well as the students.

On 23rd February 2022, third session was conducted by Mrs Alka Joshi, a social activist on **Sexual Harassment of women at work place**. At the beginning of the session, she narrated two stories regarding women security, it lead to an impressive discussion. It helped students to open up and share their experiences. Mrs. Alka Joshi explained how violence against women is deeply rooted in the patriarchal structure. She said that women are still treated as part of family or community and not as independent individuals. She further stressed the need to build support groups of youth to bring in change at social level.

Hasina Shaikh, Student Welfare Officer proposed the vote of thanks to Board of Student Development, Principal In Charge, St. Mira's College for Girls, Dr. Assunta from Christ College, All the Resource persons for the workshop and all the students participated in the workshop.

Day and Date: Monday, July 11, 2022

Venue: Room No: 102

On the occasion of World Population Day, July 11, 2022, the Department of Economics of St. Mira's College for Girls, Pune organized an online Guest Lecture on "Adolescent Health and Nutrition" by Dr. Gita Parwani, practising Homeopathy at the Inlaks and Budhrani Hospital, Pune.

The lecture was organized for all students and especially benefitted the SYBA Economics General students studying the Demography paper.

Dr. Manisha Pimpalkhare, head, Department of Economics welcomed the Resource Person and highlighted that the issue of Adolescent Health and Nutrition in India was an area of concern since it had a direct bearing on the quality of the India's demographic dividend.

Dr. Shalini Iyer and Ms. Amruta Narke provided an overview of the lecture theme in English and in Marathi and emphasized its relation to the United Nations Sustainable Development Goal (UN SDG) 3: Health for All by 2030 and the National Family Health Survey (NFHS) 5's emphasis on Female Health and Nutrition.

Munira introduced the speaker and then the session was taken over by Dr. Gita Parwani. She touched upon areas of concern among adolescent youth especially females, like iron and zinc deficiency, constipation, lack of immunity, nervous system and neurological instability, bone density issues, anxiety and mental depression and specifically hormonal disorder amongst women of reproductive age like polycystic ovary syndrome (PCOS).

Dr.Parwani highlighted the role of carbohydrates, fats, minerals, proteins in the food pyramid. She emphasized the need to alleviate symptoms of iron deficiency anaemia by consuming either non-vegetarian food or having green leafy vegetables. She identified zinc as a trace mineral necessary for DNA creation, cell growth, for building proteins, healing damaged tissue, and supporting a healthy immune system. Her advice to the students was to include salads as a fibre source to avoid constipation, lean meats or Vitamin B12 and B-9 dietary supplements for red blood cell formation, brain and nerve cell development, citrus fruits – a vitamin C source for boosting immunity, of dairy/plant-based milk products/dietary

supplements to meet the human body's calcium requirements, address weakening bone density issues leading to osteoporosis.

Dr Parwani opined that modern day sedentary lifestyles have increased vulnerabilities to high blood pressure, coronary artery diseases, brain stroke, paralysis, diabetes, obesity, hormonal imbalances amongst women leading to poly-cystic ovarian syndrome [PCOS] with symptoms like irregular periods, excessive hair growth, weight gain, skin acne, hair loss on head, mood swings, infertility, a predisposition to type 2 diabetes, high cholesterol levels, adverse psychological and emotional impacts like low self-esteem and social alienation.

She recommended the maintenance of a food diary to identify and avoid problem/junk foods, emphasized the need for a balanced diet (limiting fat/oil consumption to 2 teaspoonfuls per head daily, substituting refined oil with cold pressed oils or ghee, adding 4-5 fruit servings daily, greater protein intake from animal (meats) or plant sources (legumes), consuming whole grain as carbohydrate sources, reducing caffeine intake, increasing water intake (8-10 glasses daily), consuming healthier beverages (green tea, buttermilk, lemon juice, coconut water) instead of aerated drinks / packaged fruit juices, including oats (cereal), milk (animal or plant based), jaggery, dates, dried black currents, figs (as sugar substitutes), peanut butter (as a protein source) in one's diet.

She advised the students to adopt a physically active life-style by devoting one hour daily for walking, running, swimming, dancing, aerobics, weight training, yoga etc, having a restful sleep without electronic stimulation or exposure to loud music to avoid occurrence of sleep disorders and hearing impairment.

The lecture was well received by the students who posed several questions relating to symptoms of PCOS, diet plans, and solutions to obesity, PCOS and the like. The lecture was attended by 51 student participants and faculty. The lecture feedback showed a positive response with a majority of the students requesting for additional orientation sessions on other health issues.
