UG-76 : Manage Question Banks (Insync2)

-User Guide Version 0.1

DOCUMENT INTRODUCTION

This document is intended for exam-authority and teachers who are responsible for Managing Exam question banks.

INTRODUCTION: MANAGE QUESTION BANKS (INSYNC-2)

With the help of this user guide Exam-authority can create question banks. Afterwards question paper are finalized based on these question banks.

1. Install & login on Insync2 mobile app or login on URL "https://m_institutename.digitaledu.in//" with your registered mobile no or username, password.
2. Now go to  >> Exam .
3. Click on  >> Manage Question Banks

Figure 1

4. As given on your screen, enter question bank title & description. Ensure you use unique naming so that they can be later identified & used easily.
5. Select desired assessment group (i.e subjective, objective etc) & click on *Create Question Bank*.
6. Once you create a question bank, it will be shown on your screen one after other.

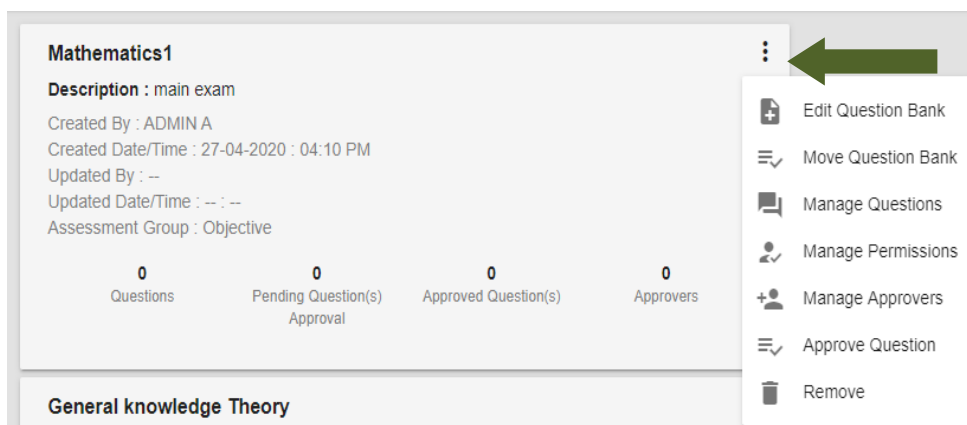

Figure 2

7. Click on  to edit or add questions, approvers, accessing permission etc. Refer Figure 2.

8. If you want to add staff members who can approve the question bank, click on *Manage Approvers* (use the option only if needed)
9. If you want to give access of editing question bank to other staff members than you, click on *Manage Permission* (use the option only if needed)
10. Click on *Manage Questions* to add questions one by one in question bank or can upload the questions in bulk. Refer Figure 3

Figure 3

11. If you select *Create Question*, select question category and question style. Enter question and click on *Save Button*. (For objective questions, you need to add answers also). Refer Figure 4

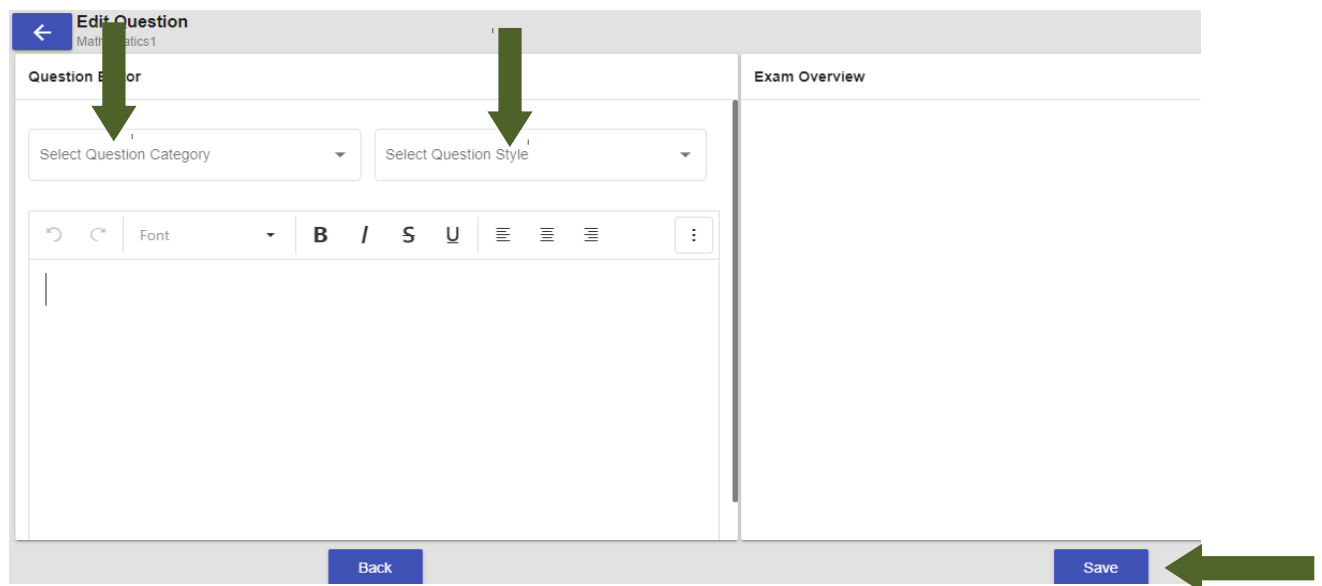

Figure 4

12. To edit the created question click on *Edit Question* & make desired changes. Refer Figure 5

Figure 5

13. As Shown in Figure 5, *Manage Similarity Tags* is used for questions belonging to similar topics. For e.g. In a question bank if three questions have same tag then only one question will be asked to student.
14. When you click on *Upload Questions* (i.e. upload question in bulk) as shown in Figure 3, you can download question template & follow the steps given on your screen.

The screenshot displays a four-step process for creating a question bank. Step 1, 'Browse Files', is the active step. It features a dropdown menu for 'Select Question Category' and another for 'Select Question Style'. Below these is a light blue box with a cloud icon and an upward arrow, containing the text 'Drag and Drop file OR Click to Browse...'. To the right, 'Instructions:' specify that users should download a template file (with a link to 'Download Template File'), that only CSV files are allowed, and that only one file can be uploaded at a time. A 'Next' button is located at the bottom right. Green arrows highlight the dropdown menus and the 'Download Template File' link.

Figure 6

15. Select desired question category & question style. Refer Figure 6.
16. Upload your question bank file and follow the steps 1 to 4 as shown in Figure 6.
